

White Stag Map Quiz

This quiz is designed to be used with the old map of Camp Redwing. The arbitrary scale of 1 inch = 200 feet should be printed at the top of the map.

Reference Point is the benchmark of 973.8 located NW of the pool.

1. What type of map is this?
2. What is the scale?
3. What is the contour interval?
4. What is the distance from the reference point to the North edge of the map in feet?
5. What is the distance from the reference point to the South edge of the map in feet?
6. What is the distance from the reference point to the East edge of the map in feet?
7. What is the distance from the reference point to the West edge of the map in feet?
8. What is the distance between the two benchmarks on the road near the West edge of the map?
9. What is the distance from the large building near the center of the map to the river?
10. What is the general direction from the reference point to the large building near the center?
11. What is the general direction from the reference point to the sharp bend in the road?
12. What is the approximate elevation of the pool?
13. What is the highest point on this map?
14. Count the number of complete buildings on this map?
15. Which direction does the river flow?
