

ANSWER SHEET

White Stag Map Quiz

This quiz is designed to be used with the old map of Camp Redwing. The arbitrary scale of 1 inch = 200 feet should be printed at the top of the map.

Reference Point is the benchmark of 973.8 located NW of the pool.

1. What type of map is this?

CONTOUR MAP

2. What is the scale?

1'=200FT.

3. What is the contour interval?

2 FEET

4. What is the distance from the reference point to the North edge of the map in feet?

725 FEET

5. What is the distance from the reference point to the South edge of the map in feet?

1475 FEET

6. What is the distance from the reference point to the East edge of the map in feet?

1325 FEET

7. What is the distance from the reference point to the West edge of the map in feet?

575 FEET

8. What is the distance between the two benchmarks on the road near the West edge of the map?

150 FEET

9. What is the distance from the large building near the center of the map to the river?

200-300 FEET

10. What is the general direction from the reference point to the large building near the center?

SOUTH-EAST

11. What is the general direction from the reference point to the sharp bend in the road?

NORTH-EAST

12. What is the approximate elevation of the pool?

972 FEET

13. What is the highest point on this map?

986.0 FEET

14. Count the number of complete buildings on this map?

10 BUILDINGS

15. Which direction does the river flow?

SOUTH-EAST
